# AnyDesk Compatibility with Microsoft Surface PRO 12: Seamless Remote Access Explained

If you're wondering whether AnyDesk is compatible with the Microsoft Surface PRO 12, featuring the Copilot and Snapdragon X processors, we have great news. According to the latest information, AnyDesk functions seamlessly on this configuration. This means you can enjoy remote access and technical support on your device without any issues.

AnyDesk is designed to deliver optimal performance even on devices powered by Snapdragon processors, ensuring that your user experience remains smooth and efficient. Compatibility with the Surface PRO 12 enables users to work and connect effectively, free from the hardware limitations that might otherwise arise.

If you're considering using AnyDesk on your Microsoft Surface PRO 12, you can do so confidently, knowing you'll have access to all the features and benefits that AnyDesk provides. For more information on installation and features of AnyDesk, visit our official website.

Remember, we are here to assist you with any technical queries you may have. Feel free to reach out if you need further assistance.
