Some Help With

Reactivate your license

TABLE OF CONTENT

1. Contact Your Original Partner
2. Request Reactivation Support

If your AnyDesk license has expired, you can reactivate it to regain full access to your Address Books, custom clients, and session history. To ensure your license is reactivated with the correct configuration, please use one of the following official channels:

1. Contact Your Original Partner

If you purchased your license through a reseller, they are the best point of contact to reactivate your subscription. They can apply any previous settings and ensure your billing is handled locally.

2. Request Reactivation Support

Visit our **Official Contact Page** to speak with a sales expert who can assist you in reactivating the right plan for your current needs.

> 🦉 **Professional Consultation**
>
> Talking to an expert before reactivating ensures that your previous data remains intact and that you are moved to the most appropriate modern plan if you were using a legacy license.
