Drawing an object

Color selection

> **Platform:** Windows, macOS, Linux, iOS

The **Whiteboard** feature allows the local user to guide the remote user by drawing on the remote screen. It's especially useful during support sessions or collaborative tasks.

Enable the whiteboard

To enable or disable the whiteboard:

- In an active session, select

  whiteboard

  in the toolbar.

Drawing controls

- **Start drawing** - hold the left mouse button.
- **Finish drawing** - release the left mouse button.
- **Cancel drawing** - press the right mouse button or ***Esc***.

Drawing modes

The whiteboard offers five drawing modes:

- Freehand
- Line
- Rectangle
- Circle
- Arrow

Drawing an object

To draw using the whiteboard:

1. In an active session, click select

   

   whiteboard

   in the toolbar.
2. Select a drawing mode.
3. Hold down the left mouse button to begin drawing.
4. Release the button to complete the drawing.
5. Press *Esc* or the **right mouse button** to cancel.
6. To remove drawings, use **Clear** or **Clear All** options.

Color selection

The whiteboard includes a palette of 16 colors:
