If your government entity is looking to acquire AnyDesk licenses, our specialized team is ready to guide you through every step of the process, ensuring a seamless and successful experience.

1. License Sizing Consultation

We provide precise guidance to determine the exact quantity and type of AnyDesk licenses you will need based on your specific requirements. Our consultation takes into account factors such as the number of simultaneous users, the types of devices involved, and the various usage scenarios.

2. Requirements Structuring

With extensive experience in public procurement processes, we can assist you in creating and reviewing documents such as specifications, requests for quotations (RFQ), and any other technical or administrative documentation needed for your acquisition process. This support ensures that your requirements are tailored to your needs and comply with the current regulatory standards.

3. Specialized Assistance and Authorized Channel Certification

To ensure a secure and efficient purchase, we offer the option to formally certify our authorized channels. This certification process guarantees the quality of the transaction, ensuring that the service
