Some Help With

Understanding AnyDesk Licensing: Do Your Customers Need a Licensed Version?

“Do My Customers Need a Licensed Version?

If you have been wondering whether your customers require a licensed version of AnyDesk, we have the answer for you. Only AnyDesk clients that initiate outgoing connections to other AnyDesk clients need to be registered to the license key. If they solely receive or reject session requests, registration to the license key is not necessary.

For more information, visit [link to relevant page] to learn about the licensing requirements.“
